

USE FLAXOAP

SHERWIN-WILLIAMS Flaxoap is a pure linseed oil soap, made to clean surfaces such as floors, furniture, woodwork, windows, mirrors, railings, etc. Owing to the great cleansing properties of linseed oil, Flaxoap has a great advantage over ordinary soaps for cleaning the dirt, grease and smudge from the above mentioned surfaces and a host of others. As a handy soap for the home it has no superior. We are handling Flaxoap in this vicinity and would like to have the opportunity to place a few cans of it on the shelves of every home. No one should be without it. It is a clear, amber jelly, readily dissolved in luke warm water and used like ordinary soap suds. Its strength does not injure the most polished surface or the most tender skin. Let's talk Flaxoap to you.

Dog Fanciers Meet And Arrange Show

Last night the Hawaiian Kennel Club was strongly represented at the meeting that was held at Secretary Tom Sharp's office on Hotel street. The greatest enthusiasm was shown in the proceedings and most of those present were the owners of one or two thoroughbred dogs.

The election of officers was carried out, and the following gentlemen were declared elected: D. P. R. Isenberg, president; L. C. Ables, vice-president; Tom Sharp, secretary and treasurer; W. J. White, auditor; D. P. R. Isenberg, Tom Sharp, W. H. Chazook, Wm. Henry, Dr. Rowatt, J. McVeigh and C. T. Littlejohn, directors.

After a lot of discussion it was decided to hold the annual show in September next, while the Alameda is here. As it will be such a long time till the show comes off, there was not much in the way of details attended to, but sufficient indication was shown of what the coming exhibition would be like. A suggestion that the show should be an agricultural one, in which dogs, cattle and horses should all be exhibited, was favorably considered, but the difficulty in bringing horses and cattle from the other islands was thought to be too much, and consequently the matter was dropped.

Tom Sharp announced that the services of a mainland judge could be secured, and that George Cranfield of Fruitvale, Cal., was available for the position. Cranfield would be able to come on the Alameda, judge the dogs, and then return on the same boat to the Coast.

Some dogs are expected to come from the Coast to take part in the show, and they will be a great attraction. These dogs will be returned to the mainland as soon as the show is over. Dogs that have a pedigree certified to by a kennel club are admitted to the U. S. A. free of duty, while those without the necessary papers are charged 20 per cent. ad valorem duty.

At the last show of the kennel club, in 1907, there were 150 dogs benched, and some fine specimens were on exhibition. This year the club expects a much larger entry list, and an even higher standard of thoroughbred dogs.

Judging from last night's meeting, the dog fanciers are going to spare no effort in making their show one of the best ever brought off here.

Guards To Play Marines Baseball

On Sunday next at 2:30 o'clock there will be a baseball game at the league grounds between the Marines and the N. G. H. team. The match will be in the nature of a tryout of the Guards who are to play the picked fleet team in a week or so.

Sergeant Barry, who is very keen on the matches that are to be played, is confident that his boys can not only hand out the goods to the Marines but that they can also wallopp the combined fleet nine. There will be no charge made at the gates on Sunday, and everybody who takes an interest in the doings of Barry's Beauts and Kilgore's Knights, can drop in and see a real good game of ball.

The Guards have been practicing hard for some time and the boys are getting into really good form. The Marines will have a practice this afternoon and the remaining days till Sunday. The Half Wets should put up a good game and although Barry thinks that the Guards cannot be beaten, the unexpected may easily happen.

First Entry In For Yacht Race

Francis Hay of Los Angeles is the first yacht owner to enter a boat for the trans-Pacific race. His entry will start the ball rolling and before long a good lot of entries should be in.

Hay, the owner of the Winsome—the boat that is entered for the race—is a wealthy young Californian, and he specially designed the Winsome for the Pacific race. The yacht is 50 feet overall, is 12 feet on the beam, and draws 8 feet. Her sail area is 1600 feet and her tonnage 32.

Tom Hobron is working on the trans-Pacific race affair, and he is doing well with the matter. Everything points to another successful event, and as the Coast papers are starting to boost the race, there is no doubt that a good number of yachts will sail for Hawaii on the day of the big event.

The owner of the Winsome has offered a special prize for the yacht under sixty feet overall which makes the best actual time over the course.

Columbia Boys To Be Seen On Diamond

On Tuesday next the Columbia Park Boys will play a game of baseball at Alexander Field against a school team of this city. The Coast boys should be in pretty good form, as they have had a lot of baseball during their trip, and the exercise on board ship coming up from Australia must have also kept them in shape.

The lads appear to have had a good time in Australia, and it is good to think that all the athletes who have journeyed from the United States to the Land of the Kangaroo have all returned with the one reply, "The Australians are all right," on their lips.

The tours of amateur and professional athletes are doing more to enlighten both nations about each other than all the books, newspapers and magazines in the world. The Australians more closely resemble Californians than do the inhabitants of the Eastern States; the resemblance is remarkable at times, and the Australian who mixes with the Californians feels at home right away, and vice versa.

If Mique Fisher carries out his intended baseball tour of Australia, his men will have a great time and the reception they got down under will surprise them. The American fleet can vouch for the way citizens of the United States are treated in the Antipodes, and the feeling of friendship is being spread by their reports.

The Columbia boys will only remain a day in Honolulu, and into that short space of time they will crowd baseball, concert and reception. The local schoolboys know that they will be up against a strong combination of ball-players in the Columbia outfit, but our lads are not worrying worth five cents, and will make the much-labeled nine play real good ball in order to win.

Tug-of-War May Be Arranged

When the fleet arrives there will be a boom in sports for a while and instead of there being almost nothing doing, there will be something to see every day in the week.

The different ship baseball nines will play matches between themselves and also against the local teams. The Leilehua boys want to have a go at the West Virginia nine and there is not much doubt that the teams will hitch up on the diamond. Then the Shafter, De Russy and Ruger boys will want to be accommodated, and the sailors will have to play good ball to defeat the bunch.

But the best and most exciting games of all will be those between the combined fleet team and the National Guards. These teams met when the fleet was here before, but the Guards were not fully represented and the sailors won by a narrow margin.

It has been suggested that a tug-of-war between a picked team from the fleet and a bunch from among the longshoremen would be an interesting event, and that the affair would draw a huge crowd. A very strong tug-of-war team could be selected from among the stevedores around the waterfront, and it goes without saying that everyone who takes the slightest interest in sport would roll up to see the fun.

Those who are in charge of the arrangements for entertaining the Jackies might do worse than arrange for a tug-of-war and see that a suitable trophy is given for it.

Things with regard to the Halewa Marathon race are being gone ahead with, and the live committee expect a large gathering of runners to be present at the meeting tomorrow night. Downy, who ran so well in one of the previous Marathons, has declared his intention of entering for the race of March 20. He should run well in it and if in condition may go close to winning.

There will be a wren race on Sunday next when the Healan Cup will be sailed for. At least seven of the small boats are expected to take part in the race, and there will be the usual big crowd of followers of the sailing game down at the two boat clubs.

Now that the weather has cleared up a bit, the Y. M. C. A. tennis people are talking of getting up a double tournament, and the scheme is well thought of by most of the members.

ATHLETIC FIELD FOR BOYS CLUB

Mrs. G. P. Castle Gives Present Of Books To Y. M. C. A.

Dr. Scudder, pastor of the Central Union church, will give a series of talks at the local Y. M. C. A., commencing February 9. These will be Lenten noonday services, and will be held each Wednesday from 12:30 to 1:15 o'clock. The subjects chosen by Dr. Scudder for his addresses will be on young America's religious problems.

The boys' work committee of the Honolulu Y. M. C. A. and the directors of the Boys' Clubs held a meeting on Monday night at the Myrtle bathhouse. Supper was served by Theodore Richards, chairman of the committee. Those present were Theodore Richards, G. P. Castle, Vaughan McCaughey, Messers. Reece and Reed of Oahu College, J. A. Rath, H. W. Chamberlain, R. S. Gault, Dr. E. H. Hand, Rev. A. A. Ebersole, assistant pastor of the Central Union church; Paul Super, secretary of the Y. M. C. A.

The object of this meeting was to plan the work in connection with the Boys' Club that Mr. Gault has come to take charge of. It was unanimously decided to put the Boys' Athletic Field in good shape for athletic meets and baseball. A committee was appointed to decide what was to be done in this direction. Paul Super was elected chairman, and with him the following named were asked to serve: J. A. Rath, R. S. Gault, Theodore Richards.

One of the chief topics of discussion was what disposition should be made in regard to the Boys' Trade School by the O. R. & L. depot in Palama. The clubs conducted by the organization will be of three classes—the church clubs, school clubs, and district clubs—according as they are affiliated with some church or school, or are composed of boys from some particular district.

This organization has done some very good work in the past in pioneer manual training in the Honolulu public schools. It built the athletic field in Kaula, which for years was the only track in the city, and for a number of years was the chief promoter of track athletics. Now that a good man has been secured to direct the activities of the Boys' Clubs, these will soon gain a place of prominence amongst the local institutions.

The work at present being carried on consists of the Kawaihau Club and the central club at the Y. M. C. A., under the direct supervision of the committee; Palama and Kaula, which are affiliated with the Boys' Clubs, and a boys' club of the First M. E. church, which it is expected will affiliate within a few weeks.

The Honolulu Y. M. C. A. library has been augmented by the addition of fifty volumes of current fiction. This was a gift to the Association by Mrs. G. P. Castle.

INSPECTS MAUI SOLDIERS.

(Special to The Bulletin.) WAILUKU, Maui, Jan. 22.—Sergeant Bancroft is in Wailuku this week inspecting and drilling Company I, First National Guard of Hawaii. There have been three drills already in the armory this week and the Sergeant found Captain W. E. Hall's command excellent soldiers. The company will turn out next Sunday morning at Welk Park, when Sergeant Bancroft will drill the boys in the manual of arms to extended order, guard mount, and might even show the boys how to take a fortified town.
